

Rooftop CBRN/ Teargas System

Ref. RTS-170

SPECIFICATION

Teargas to client specification

CBRN Protection STANAG 4632 (AEP-54)

Airflow 170m³/h

Overpressure Pressure Regulation between 200-500Pa

CBRN Filter Cartridge Ø 325mm x 369mm H

Filtration 95% Efficient Particle Cyclone Filtration; Primary Pleated Filter, HEPA with CBRN Filtration Cartridge

HMI Stand Alone
LED fault and/or warning indication & alarm

Fault Finding Bluetooth

Enclosure Protection IP54

System Weight 150kg excluding armour protection

Power Supply 28VDC, 30A

OPTIONAL

Automatic 3Way Valve Switching Automatic 3 way valve switching when activating the CBRN system from the default Fresh Air Filtration to CBRN filtration

Network CAN Bus for integration to vehicle diagnostics

Armour Protection
